

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

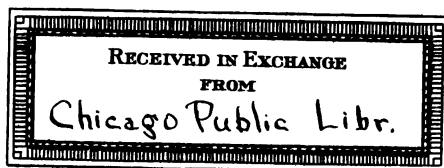

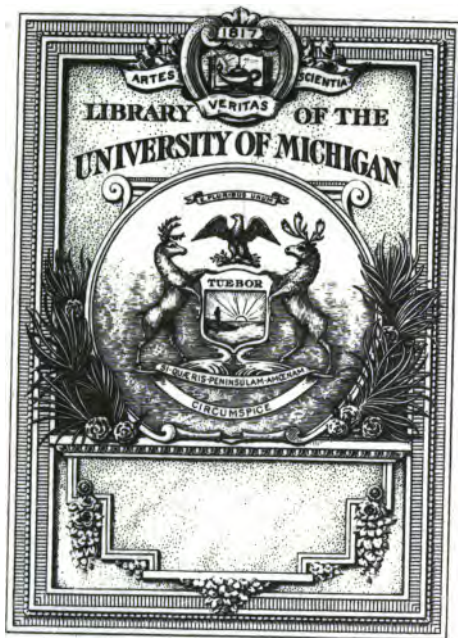

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The following communication addressed to the Auditor of Public Accounts, was read:

CAIRO, ILL., Sept 8, 1905.

Hon. James S. McCullough, Auditor of State, Springfield, Ill:

DEAR SIR—Inclosed you will find the petition of the county of Alexander, the city of Cairo and the Board of Education of the city of Cairo, to the State Board of Equalization, requesting said State Board to assess and value, for purposes of taxation, the Illinois approach of the Illinois Central Railroad bridge across the Ohio river at Cairo.

We will thank you very much if you will place this petition, with its accompanying memorandum of information, on file and have same laid before the board, as soon as practicable, for action by it thereon.

We will come before the board, or any committee thereof, whenever it is desired, and present such further information as they may want. We will do this alone or with representatives of the railroad company who may present their side of the matter.

It seems to us that the board should assess the approach even if it should be inclined to regard it as exempt. By so doing, the public and the railroad

company will be enabled to get the matter settled in the courts at an early day. Besides, in all such cases, the benefit of any doubt should be resolved in favor of the public and the property, whatever it may be, assessed and taxed, unless it is very clear it is not subject thereto.

We will thank you for an acknowledgment of the receipt hereof.

Very truly yours,

LANSDEN & LEEK.

The following communication addressed to the Secretary of the Board was read:

CAIRO, ILL., Sept. 16, 1905.

Will you please file this amendment and attach it to the original petition, and we will thank you very much.

Very truly yours,

The following communication addressed to S. M. Barnes, chairman Committee on Assessment of Capital Stock of Corporation, by the Attorney General, was read and ordered placed on file:

SPRINGFIELD, Oct. 13, 1905.

Hon. S. M. Barnes, Chairman Capital Stock Committee, State Board of Equalization, Springfield, Ill.:

DEAR SIR—You have this day submitted to me the question whether under the recent act of the Legislature, known as "The Capital Stock Exemption Law," those corporations which have hitherto been assessed by the Board of Equalization and are within the terms of that law, are exempt from taxation this year under its provisions, and you suggest as a reason why they would be subject to taxation that all property taxation dates April 1st, whereas the law in question took effect July 1st this year.

Replying to the question submitted, I would say that I have heretofore given opinions to the effect that all assessments for the current year date April 1st, and that laws passed changing the method of assessment or exempting certain property from assessment, which took effect July 1st of this year have nothing to do with the assessment or taxation of property for this year

I am of the opinion that the rule heretofore announced is the correct rule, and that under it all corporations which have heretofore been required to make schedules for assessment to the State Board of Equalization are required to do so this year and are not exempted by any law which took effect July 1st.

Very truly yours,

W. H. STEAD,
Attorney General.

For the information of the board the following communication addressed to the Auditor of Public Accounts by the county clerk of Madison County, was read:

EDWARDSVILLE, ILL., Oct. 14, 1905.

Jas. S. McCullough, State Auditor, Springfield, Ill.:

DEAR SIR—Your letters and telegram to hand, and I am very sorry to say that I am not ready to make out the abstract of this county, as our Board of Review is so very slow and have not completed their work. I have been after them for three or four weeks, and insisted on them having their report made. There still remains several townships which they have not gone through with. I think I will have them ready in the next few days. I will show them this telegram, and will probably help them myself if they will let me do so.

Yours truly,

EDWARD FEUTZ,
County Clerk.

On motion of Mr. Simon,

The petition of the County of Alexander, the City of Cairo, and the School Board of the City of Cairo in relation to the assessment of the approach to the Cairo bridge operated by the Illinois Central Railroad Company, was referred to the Committee on Assessment of Railroad Property.

Mr. Christian offered the following resolution, which was adopted:

WHEREAS, The Attorney General has given his opinion to the chairman of the Committee on Assessment of Capital Stock of Corporations, which opinion is placed on the records of this board, that the act of the Legislature known as "The Capital Stock Exemption Law," which took effect July 1st of this year, to the effect that all assessments of the current year date April 1st, and that laws passed changing the method of assessment or exempting certain property from assessment, which took effect July 1st of this year, have nothing to do with the assessment of property of this year; that all corporations which have heretofore been required to make schedule for assessment to the State Board of Equalization are required to do so this year and are not exempt by any law which took effect July 1st.

Therefore, be it resolved, That it is the sense of this board that the Committee on Assessment of Capital Stock of Corporations proceed to make assessments of capital stock of corporations for the year 1905, that were by law subject to assessment prior to the taking effect of the act of the Legislature referred to in said opinion of the Attorney General.

On motion of Mr. Hirsheimer,

Respectfully submitted,

E. H. MARSH,
S. M. BARNES,
THOS. N. LEAVITT,

Resolved, That for the purpose of ascertaining the fair cash value of the capital stock, including the franchise, of all companies or associations now or hereafter created under the laws of this State, and for the assessment of the same or so much thereof as may be found to be in excess of the equalized valuation of the tangible property of such companies and associations, respectively, we, the State Board of Equalization, hereby adopt the following rules and principles, viz:

First—The fair cash value of the shares of capital stock (consideration being given among other things, to the value of the shares of stock and the quotations of such shares in the market over such a period of time as may be reasonable, also the books of said corporations and the returns made to the Auditor of Public Accounts, or such other information as the board may have or may be able to obtain) and the amount of the indebtedness (except indebtedness for current expenses, excluding from such expenses the amount paid for the purchase or improvement of property) shall be combined or added together.

Said State Board of Equalization shall then equalize said amount so obtained, so that said companies or associations shall be assessed as near as practicable upon a uniform basis with other property throughout the State.

Second—From the aggregate amount so determined and equalized as aforesaid, there shall be deducted the aggregate equalized valuation of all tangible property of such corporation or association, respectively, and one-fifth of the remainder, if any, shall be taken and held to be the assessed value of the capital stock of such corporation or association, including the franchise, over and above the tangible property thereof.

The following communication from the Board of Review of Logan county was read by the secretary:

To the State Board of Equalization of the State of Illinois.

Objection having been made to the action of the undersigned Board of Review within and for the county of Logan and State of Illinois, in adding twenty-five (25) per cent to the valuations of personal property and town lots in said county, and in adding fifteen (15) per cent to the valuations of lands in said county as assessed and returned by the assessors of said county for the year 1905, and having been advised that on such increased valuations after the same have been equalized by your board, all taxes, including State taxes, must be levied on such valuations as equalized by your board. We do respectfully request and petition you to reduce the assessments as returned to your board from said Logan county, as follows: On all personal property and town lots twenty-five (25) per cent and on all lands fifteen (15) per cent.

At the time we took the action complained of, it was our understanding and belief that no taxes would be levied on such increased valuation, but the taxes levied with which to raise revenues for the county of Logan; in that belief our action was taken in good faith and entirely without any sinister purpose.

We accordingly petition you to make the reductions in the assessments as returned from Logan county hereinbefore suggested.

Dated at Lincoln, Illinois, this 27th day of November, A. D., 1905.

JNO. McMATH,

TUESDAY, DECEMBER 5, 1905—2:00. o'clock p. m.

Board not pursuant to adjournment.

Mr. McCullough in the chair.

Mr. Colburn, chairman of the Committee on Equalization of Personal Property, presented the following report from said committee:

SPRINGFIELD, ILL., Dec. 5, 1905.

To the Honorable State Board of Equalization:

GENTLEMEN:—Your committee on Equalization of Personal Property respectfully reports the result of its labors as embraced in the accompanying tables, which are made a part of this report. We have ascertained the rate per cent of addition to or deduction from the assessed value of personal property in each of the several counties of the State, to bring the same to the State average, as required by law. We have considered the relative values of personal property in each county, and made such variations from the rate per cent produced by bringing the assessment of each county to the State average, as in our judgment was necessary to a just and equitable equalization of personal property, and in so doing we have a deficit of \$382,973.00, which we report to the board, to be disposed of through the Committee on General Equalization.

Respectfully submitted,

WARREN E. COLBURN, *Chairman.*

JOHN SHERIDAN,

WM. W. AUSTIN,

RUDOLPH MULAC,

FRANK P. MARTIN.

The following communication addressed to the members of the board by J. F. Gillham, State's Attorney of Madison County, was read:

To the Honorable Members of the State Board of Equalization of the State of Illinois:

GENTLEMEN—The undersigned, J. F. Gillham, State's Attorney in and for the County of Madison and State of Illinois, on behalf of the People of the State of Illinois, herewith presents to you a memorandum of information compiled by the undersigned and which has been fully presented to your Committee on Railroads, based upon evidence now in their possession.

The schedule filed by the St. Clair, Madison & St. Louis Belt Railroad Company, a corporation organized under the laws of the State of Illinois, filed with the State Auditor this year shows that only 225 feet of the Alton bridge at Alton, Illinois, is assessed in Illinois; that the valuation placed upon said property is very low and has been thrown open to the public use for over ten years, and that the tax for the year 1903 was not paid to the treasurer of Madison County as is shown by the affidavit of John Tetherington, deputy treasurer of said county, which is now in possession of your Railroad Committee.

The government surveys of the United States government for 1880, 1893 and 1897 now on file with said committee show the channel of the Mississippi river at the said bridge to be on the west side of the river, within 428 feet of the west end of said bridge, and Major C. F. Riche, Corps of Engineers of the U. S. Engineer's Office at Rock Island, Ill., who has jurisdiction over the river at this point, in a letter of Nov. 17, 1905, to the undersigned, a copy of which is now with said committee, located the center of the channel for the allotment of taxes 1,674 feet west of the east pier of the draw span on the Illinois shore, while said schedule indicates same 225 feet distant therefrom. Said schedule has the following memorandum: "These bonds and capital stock are issued on the entire property of the Bridge Company covering the bridge and track from Alton, Ill., to West Alton, Mo., in St. Charles county. Mileage in Illinois to the center of the channel is .29 miles and in Missouri 2.51 miles. The length of the bridge in Illinois amounts to 225 feet, which is included in the .29 miles; total length of bridge 2100 feet," thus showing that mileage in Missouri to center of channel is 2.51 miles without giving number of feet of bridge proper. An affidavit of Mr. Morgan, county surveyor of Madison county, now on file with said committee, shows that 2.51 miles measuring from the terminus of main track of said line at West Alton would include only 407.9 feet of the west end of the bridge, which is about twenty feet less than that fixed by Major Riche; the said memorandum in the schedule above, considered with Morgan's report, shows conclusively that the bridge is not assessed in Missouri to the middle of the draw, but to the center of the channel as indicated by Major Riche. "Poor's Manual" shows that the cost of construction of said property was \$1,700,798.00. A mortgage of the Missouri & Illinois Bridge and Belt Railroad Company, recorded in Book 302, Page 501, in the recorder's office of Madison county, shows that \$1,590,000.00 worth of gold bonds bearing four per cent. interest, payable semi-annually and exempt from taxation are to be used in taking up the capital stock of said St. Clair, Madison & St. Louis Belt Railroad Company, and also a mortgage of \$800,000.00, a partial copy of said mortgage being in the hands of said committee. The schedule of said St. Clair, Madison and St. Louis Belt Railroad Company should give 3,009 feet less than 225 feet of surface main track in Illinois, and 1,674 feet of bridge proper in Illinois, as determined by Major Riche, which includes the most costly part of said bridge, the draw span 454 feet and the large raft span 350 feet long. From the valuation placed on the capital stock and the \$800,000.00 mortgage referred to above, this property in both States is worth \$1,590,000.00 and allowing 1,674 feet of bridge proper in Illinois, the value of said property in Illinois, both tangible and intangible, upon that estimate is worth \$1,084,599.00.

It is to be hoped that the company liable for said taxes will be compelled to pay what is just, as indicated above, and for the year 1903, mentioned above, when no taxes were paid; that the company liable for said taxes be assessed by this honorable board in the manner provided by law.

Dated at Edwardsville, Ill., this 9th day of December, A. D., 1905.

Respectfully,

J. F. GILLHAM,

State's Attorney in and for Madison County, Ill.

Mr. Barnes, chairman of the Committee on Assessment of Capital Stock of Corporations Other than Railroads, presented the following report from said committee:

SPRINGFIELD, ILL., Dec. 21, 1905.

To the Honorable State Board of Equalization:

GENTLEMEN—Your Committee on Assessment of Capital Stock of Corporations Other than Railroads, having carefully examined the sworn statements of capital stock, schedules and other evidence laid before it, begs leave to report the result of its labors in schedules "A" and "B" which are made a part of this report.

Schedule "A" shows the valuation and assessment upon the capital stock, including the franchise of companies and associations therein named, being the equalized value of the capital stock, including the franchise over and above the equalized assessed value of the tangible property assessed by the local assessors. In the case of many corporations named in this schedule the sworn statement of capital stock required by section 32 of the revenue law was not made, and in all such cases your committee made an assessment of capital stock from the best information obtainable.

Schedule "B" contains a list of corporations and associations making returns which your committee has carefully examined and finds, after valuing the capital stock and franchise of said corporations and associations, that in the case of each of said corporations and associations the equalized value of the tangible property assessed by the local assessors, your committee finds that after deducting the equalized assessed value of the tangible property from the value of the capital stock and franchise, there is no capital stock to assess by this board: your committee has therefore included all such companies and associations in schedule "B."

Respectfully submitted.

Mr. Marsh, chairman of the Committee on Assessment of Railroad Property, presented the following report from said committee:

SPRINGFIELD, ILL., Dec. 21, 1905.

To the Honorable State Board of Equalization:

GENTLEMEN—Your Committee on Assessments of Railroad Property respectfully report that they have carefully examined the schedules and statements furnished by the various railroad companies and by the Auditor of Public Accounts of railroad property denominated by law "rolling stock" and "railroad track," and have included in the assessment against said companies, respectively, all lands, lots and blocks described and included in the respective returns of said railroad companies as a part of Schedule "A" of railroad track, and have also included in such respective assessments all of the side or turnouts and second tracks, and all station houses, depots, machine shops or other buildings and improvements belonging to said railroad companies, respectively, on said lands, lots and blocks so described in said Schedule "A" of railroad track.

Your committee would further report that they have assessed, according to the rules and principles adopted by this board, the capital stock, including the franchise, of all the railroad companies contained in Schedule "B," which is made a part of this report.

Your committee further report that they have valued and equalized the capital stock, including the franchise, of each and every railroad company created under the laws of this State, in accordance with the rules and principles adopted by this board for the assessment of capital stock of corporations, including the franchise, and we find that as to all of said railroad companies (except those included in Schedule "B") the equalized valuation of tangible property is equal to or exceeds the equalized valuation of the capital stock, so that the assessment of the tangible property of said railroad companies (except those included in Schedule "B") leaves nothing to be assessed as capital stock.

Respectfully submitted.

Mr. Marsh, Chairman of the Committee on Assessment of Railroad Property, presented the following additional report from said committee:

SPRINGFIELD, ILL., Dec. 21, 1905.

To the Honorable State Board of Equalization:

GENTLEMEN—Your Committee on Assessment of Railroad Property respectfully makes an additional report that it has received from the Auditor of Public Accounts information in the form of an official certificate from the county clerk of McLean county, showing that said county clerk in certifying the assessment of property made by local assessors of said McLean county, certified the assessment of personal property assessed against the Chicago & Alton Railway Company for the year 1904 at the full value of \$423,875.00, when it should have been certified as the one-fifth of said value or \$84,775. That your committee upon examination finds that by reason of such erroneous certification of the amount of personal property so made against said railroad, the Committee on Assessment of Railroad Property at the session of the board in 1904 in making the assessment of capital stock against said Chicago & Alton Railroad Company considered the value of personal property certified by said county clerk at the one-fifth or assessed value for the purpose of taxation, that in making the deduction of the "full equalized value of tangible property as assessed by local assessors and State Board of Equalization" from "the full, equalized value of capital stock and franchise as fixed by the State Board of Equalization," the amount of the personal property assessment against said company in McLean county, so erroneously certified by the county clerk at \$423,875, was multiplied by five and the amount so produced was included in the total value of the deduction made from the full value of the capital stock and franchise of said company, thereby deducting an excessive amount of \$1,695,500 full value, which action decreased the net assessment of capital stock \$339,100 which should have been assessed for the year 1904 against said Chicago & Alton Railway Company. Your committee has, therefore, made a back assessment of capital stock and franchise against the Chicago & Alton Railway Company for the said year 1904 amounting to the net sum of \$339,100, which amount is to be apportioned to the counties through which said road runs in proportion to the miles of main track in each of said counties.

Respectfully submitted,

EDWARD H. MARSH, *Chairman*,
